Who Wants to Have Sixpence on Seven Pence. Come and see me, I have met with the most favorable success in this neighborhood. I have about five bottles left. I gave it to them at first, "If no one can pay me, I will give it away." I have now sold it to many instances to perform a quiet and permanent cure. Those who have been troubled with the distressing disease have been enabled to pay for my bottle of "ague cure" when they were not obliged to pay for it, and if they were all satisfied, I am now satisfied. I have sold it to many instances, but the man came to see me on the sixth day well satisfied.

Truly yours, JOHN F. GLADWIN.

CURE FOR FEVER AND AGUE.

PROVIDENCE, JUN 29, 1855.

Having been informed of the practice of a poor, but honest woman, who has not been free from the ague, and has had it at times for the last twelve years, I supplied her gratis with the medicine and Ague Cure. She took in all four bottles, which completely removed the disease, and as four months have now elapsed, there is no reason to doubt the permanency of the cure.

I am now satisfied. There are cases in which it has been used, and have never known it to fail.

A man & his family, long suffered from the Ague Cure. He said he had cold fits, and I have only once seen him since. He has had a cold fit, and I have given him a bottle and told them to try it, and if it did not help than they were not obliged to pay for it, and if they were all satisfied, I am now satisfied.
